

▼ ETT400 Turntable

- Safe and controlled rotation of heavy loads
- Easily change rotation direction
- Dual capacity: 225 tons with one cylinder, 450 tons with two cylinders
- Compact size for use in applications with limited space
- Compatible with standard Enerpac pumps
- Hardwood surface.

▼ SELECTION CHART

Maximum Load Capacity	Model Number	Cylinder Capacity *	Cylinder Oil Capacity *		No. of Cylinders *	Rotation per Stroke	Platform Diameter	
			advance	retract				
(tons)		(tons)				(degrees)	(in)	(lbs)
225	ETT200	25	48.3	21.0	1	12.5	70.47	3748
450	ETT400	25	48.3	21.0	2	12.5	70.47	3803

* Per cylinder. Cylinder model number: **BRD259-ETT**

ETT Series

Maximum Capacity:
225 - 450 tons

Cylinder Capacity:
25 tons

Maximum Operating Pressure:
10,000 psi

Safe and controlled rotation

The ETT-Series is your solution for rotating heavy loads during, before or after a lifting and skidding operation.

SFP-Series, Split-Flow Pumps

Split-Flow pumps distribute an equal amount of hydraulic oil to a maximum of 8 outlets. Smart valve technology allows both controlled lifting and lowering of heavy loads.

LH-Series, Low-Height Skidding

The ETT-Series are ideal in combination with our skidding systems, particular the LH-Series. Skidding and rotating in confined spaces is simplified.

Telescopic Hydraulic Gantries

The ETT-Series in combination with our hydraulic gantry SL-Series makes load handling in the most demanding situations easy.
